

## **How Local High Streets have changed**

This national u3a project started in September 2020 and had three tiers of activity: surveying local shopping streets, taking photos, and identifying a local idea or ideas to explore further. The process of uploading over 24,700 photographs and data has now been completed. Sheffield U3A made a significant contribution which can be seen at [Sheffield Data](#). This project has achieved an impressive record of our “sense of place”. To view the entire site contents click [www.u3ahighstreet.co.uk](http://www.u3ahighstreet.co.uk).
