**** EXPRESSIONS OF INTEREST REQUIRED ****

A unique opportunity to visit the JCB factory for a guided tour of the manufacturing process of their famous Backhoe Loader machines.

The tour starts with welcome refreshments and a short presentation in the JCB Theatre. After, a tour guide will take us on a personal tour of the “Story of JCB” exhibition followed by a guided walking tour of the shop floor.

The tour will then take you to the assembly line of the world famous Backhoe Loader machine; here you will see the process of how the machine is built from the delivery of the sheet steel, profiling, laser cutting, welding, paint shop,

assembly and finally the finished product!.

After our tour, we will enjoy lunch in their VIP Hospitality Suite with seasonal dishes created by JCB’s Executive Head Chef, Alistair Rowe.

Mobility and sensible walking shoes (no sandals) are required.

The tour will take place on a Monday in the spring 2025 and will cost about £70 including coach travel from and return to Sheffield, the JCB visit with lunch, gratuities and possibly another venue in the afternoon on our way back.

If this is of interest to you, please send me an email to arrive by the end of October. bpcave@hotmail.com
