

Our Friend Joe

When I think of the places we used to hang out
The Locarno, [pause] The Mojo, Park Hill Flats
Down at Coles Corner, or Fitzalan Square
the steel city's always been where it's at

We're still here in old Sheffield town
And nothing ever gets us down
Yes we're always gonna stick around.

Do you remember?
When we sang along with Joe?
I'll always remember...
How we saw our singer grow

The whole of my life is now lit up in lights,
And I know how it feels to be free,
All the things that were grey, have now fallen away,
It's the sixties the music and me.

We're still here in old Sheffield town
And nothing ever gets us down
Yes we're always gonna stick around.

Do you remember?
When we sang along with Joe?
I'll always remember...
How we saw our singer grow

And we're still here in old Sheffield town
And nothing ever gets us down
Yes we're always gonna stick around.
In for a penny in for a pound... in old Sheffield town

Lyrics: Beardon/West/Clark :
