

# YORKSHIRE'S CAVIAR?

# MUSHY PEAS!

Did you or someone you know work at Batchelors' in Sheffield?  
We'd love to talk to anyone with a connection to the  
Batchelors' factories in Sheffield up to the 1980s.

We're gathering memories from those with a connection to Batchelors - stories of work, friendship, celebration, and everyday life.

From the picking belt to seaside trips, we want to hear it all!

Batchelors was more than a factory. Led by Ella Hudson Gasking, it was a vibrant community with a wonderfully diverse workforce.

## SHARE YOUR STORY. PRESERVE THE PAST.

We're **especially** keen to hear from people whose voices are often left out of history books - particularly from the global majority. Your stories matter, and we want to make sure they're recognised and celebrated as a vital part of Sheffield's rich industrial heritage.

This project celebrates Ella's legacy and the women and workers who helped shape Sheffield's industrial past. Your memories will help bring history to life and preserve this important heritage for future generations.

**If you or someone you know has a connection to Batchelors please get in touch with [carly@wearechol.co.uk](mailto:carly@wearechol.co.uk)**
