

## Remembering Members who have Died

Su3a does not generally mark the death of members for a number of very valid reasons not least the fact that we are not always informed of them. We do not have the resources to keep track of and mark deaths and to mark the passing of some members and possibly omit others who may have played a significant role in our organisation risks causing offence.

In January 2023 the EC therefore adopted the following position:

“When a request is received to mark the passing of a member who has played a significant part in either a group or in Sheffield u3a generally, a brief notice can be put in the e-newsletter and the notice should be provided by the person requesting it. Links should not be used for this purpose.”
